The Adult Learning Theory - Andragogy - of Malcolm Knowles

What Andragogy means and which are Knowles’ 5 assumptions of Adult Learners? Are you familiar with Knowles’ 4 Principles Of Andragogy? At the following post I will answer the above questions and you will find several highly recommended resources on Malcolm Knowles’ Adult Learning Theory.
The Adult Learning Theory - Andragogy

Malcolm Shepherd Knowles (1913 – 1997) was an American educator well known for the use of the term Andragogy as synonymous to the adult education. According Malcolm Knowles, andragogy is the art and science of adult learning, thus andragogy refers to any form of adult learning. (Kearsley, 2010).

The term andragogy can be supposedly equivalent to the term pedagogy. Andragogy in Greek means the man-leading in comparison to pedagogy, which in Greek means child-leading. However, it should be noticed that the term pedagogy is used since the Ancient Greek times while Alexander Kapp, a German educator, originally used the term andragogy in 1833.

Knowles’ 5 Assumptions Of Adult Learners

In 1980, Knowles made 4 assumptions about the characteristics of adult learners (andragogy) that are different from the assumptions about child learners (pedagogy). In 1984, Knowles added the 5th assumption.

1. Self-concept
   As a person matures his/her self concept moves from one of being a dependent personality toward one of being a self-directed human being

2. Adult Learner Experience
   As a person matures he/she accumulates a growing reservoir of experience that becomes an increasing resource for learning.
3. **Readiness to Learn**
   As a person matures his/her readiness to learn becomes oriented increasingly to the developmental tasks of his/her social roles.

4. **Orientation to Learning**
   As a person matures his/her time perspective changes from one of postponed application of knowledge to immediacy of application, and accordingly his/her orientation toward learning shifts from one of subject-centeredness to one of problem centeredness.

5. **Motivation to Learn**
   As a person matures the motivation to learn is internal (Knowles 1984:12).

**Knowles’ 4 Principles Of Andragogy**

In 1984, Knowles suggested 4 principles that are applied to adult learning:

1. Adults need to be involved in the planning and evaluation of their instruction.
2. Experience (including mistakes) provides the basis for the learning activities.
3. Adults are most interested in learning subjects that have immediate relevance and impact to their job or personal life.
4. Adult learning is problem-centered rather than content-oriented. (Kearsley, 2010)

**Application of Andragogy in Personal Computer Training**

Knowles (1984) provide an example of applying andragogy principles to the design of personal computer training:

1. There is a need to explain the reasons specific things are being taught (e.g., certain commands, functions, operations, etc.)
2. Instruction should be task-oriented instead of memorization -- learning activities should be in the context of common tasks to be performed by the others.
3. Instruction should take into account the wide range of different backgrounds of learners; learning materials and activities should allow for different levels/types of previous experience
4. Since adults are self-directed, instruction should allow learners to discover things and knowledge for themselves without depending people, will be provided guidance and help when mistakes are made.

I highly encourage you to read the 9 Tips To Apply Adult Learning Theory to eLearning. In this article I’ll discuss how Knowles’ 5 adult learning theory assumptions can be translated to modern day eLearning experiences, so that you can integrate the 4 principles of Andragogy into your eLearning course for maximum learner engagement and motivation.

The Adult Learning Theory - Andragogy - of Malcolm Knowles from eLearning Industry
Malcolm Shepherd Knowles (1913 – 1997)
Was an American educator well known for the use of the term Andragogy as synonymous to the adult education.
According to Malcolm Knowles, andragogy is the art and science of adult learning, thus andragogy refers to any form of adult learning. (Kearsley, 2010).

The term andragogy can be supposedly equivalent to the term pedagogy. Andragogy in Greek means man-leading in comparison to pedagogy, which in Greek means child-leading. However, it should be noticed that the term pedagogy is used since the Ancient Greek times while Alexander Kapp, a German educator, originally used the term andragogy in 1833.

In 1980, Knowles made 4 assumptions about the characteristics of adult learners (andragogy) that are different from the assumptions about the characteristics of child learners (pedagogy). In 1984, Knowles added the 5th assumption.
CHARACTERISTICS OF ADULT LEARNERS (ANDRAGOGY)

1. SELF-CONCEPT
   As a person matures his/her self-concept moves from one of being a dependent personality toward one of being a self-directed human being.

2. ADULT LEARNER EXPERIENCE
   As a person matures he/she accumulates a growing reservoir of experience that becomes an increasing resource for learning.

3. READINESS TO LEARN
   As a person matures his/her readiness to learn becomes oriented increasingly to the developmental tasks of his/her social roles.

4. ORIENTATION TO LEARNING
   As a person matures his/her time perspective changes from one of postponed application of knowledge to immediacy of application, and accordingly his/her orientation toward learning shifts from one of subject-centeredness to one of problem-centeredness.

5. MOTIVATION TO LEARN
   As a person matures the motivation to learn is internal (Knowles 1984:12).

KNOWLES’ 4 PRINCIPLES OF ANDRAGOGY

1. INVOLVED ADULT LEARNERS
   Adults need to be involved in the planning and evaluation of their instruction.

2. ADULT LEARNERS’ EXPERIENCE
   Experience (including mistakes) provides the basis for the learning activities.

3. PROBLEM-CENTERED
   Adult learning is problem-centered rather than content-oriented. (Kearsley, 2010)

4. RELEVANCE & IMPACT TO LEARNERS’ LIVES
   Adults are most interested in learning subjects that have immediate relevance and impact to their job or personal development.

In 1984, Knowles suggested 4 principles that are applied to adult learning:

**ABOUT US**

**eLearning Industry** is the largest online community of professionals involved in the eLearning industry. At eLearning Industry you will find the best collection of eLearning articles, eLearning concepts, eLearning software, and eLearning resources based on the Top eLearning Authors. You are more than welcome to Post your eLearning article.

**eLearning Industry** is designed to:

- share the knowledge via eLearning articles, tweets, ppp, etc,
- help instructional designers and (or) eLearning professionals to find a project or a temporary basis job,
- to build a safe online community of professionals involved in the eLearning industry.
